Outline Dimension Drawing

Model	Technical Parameters	
	Model	DM-31
DM-31	Type	Diffuse Reflection Type
	Amplifier Model	PE23
Product Features	Length	2000mm (Freely Trimmable)
	Specification	Ø1.0mm×0.5mm Single Core
<ul style="list-style-type: none"> • Diffuse Reflection Type • Multi-Fiber Type 	Bending Radius	R15
	Housing Material	PE
	Core Material	PMMA
	Head Material	SUS304
	Light Emission Direction	Front End
	Protection Class	IEC IP65
	Operating Ambient Temperature	-40°C ~ +70°C
	Accessories	M3 Nuts × 2 + Washers × 2
	Thread Specification	M3×0.5

Note 1: Please note that improper processing of the fiber end after free trimming may cause a maximum reduction of 20% in detection distance.

Note 2: The minimum detection object is the value when the detection distance and sensitivity are set to optimal conditions.
