Dimension

Model	Technical Parameters	
DM-R41G	Model	DM-R41G
	Type Code	Diffuse Reflection Type
	Amplifier Model	PE23
Product Features • Diffuse Reflection Type • 90° Right Angle Coaxial	Fiber Length	2000mm (Freely Trimmable)
	Specification	S:Ø1.0mm×0.5mm Single Core R:Ø1.3mm×0.25mm×9 Multi-Core
	Bending Radius	R15
	Housing Material	PE
	Core Material	PMMA
	Head Material	M4 Stainless Steel (304)
	Light Emission Direction	/
	Protection degree	IEC IP65
	Ambient Temperature	-40°C ~ +70°C
	Accessories	M4 Nuts+ Washers
Note 1: Please note that improper processing of the fiber end after free trimming may cause a maximum reduction of 20% in detection distance. Note 2: The minimum detection object is the value when the detection distance and sensitivity are set to optimal conditions.
