

Dimension

Model		Technical parameters	
DR-E21	Model	DR-E21	
	Type code	Diffuse reflection	
	Optical fiber model	PE23	
Product Features		Length	2000mm (Trimable)
• Diffuse reflection • Multi-Fiber Type	Specification	Ø1.0mm×0.25mm×4 Multicore	
	Minimum bending radius	R4	
	Housing material	PE	
	Core Material	PMMA	
	Connector Material	SUS304	
	Light Emission Direction	Front	
	Protection degree	IEC IP65	
	Ambient temperature	-40℃ ~ +70℃	
	Accessories	/	
Note 1: Improper termination of field-trimmable fiber may reduce the maximum sensing distance by up to 20%.			
Note 2: The stated minimum detectable object size applies under optimal conditions of sensing distance and sensitivity setting.			

- Diffuse reflection
- Multi-Fiber Type
