

Dimension

Model		Technical parameters	
DR-S32	Model	DR-S32	
	Type code	Diffuse reflection	
	Optical fiber model	PE23	
Product Features	Length	2000mm (Trimnable)	
	Specification	Ø1.3mm×1.0mm Single Core	
	Minimum bending radius	R25	
	Housing material	PE	
	Core Material	PMMA	
	Connector Material	SUS304	
	Transmitter Divergence Angle	60°	
	Light Emission Direction	Front	
	Protection degree	IEC IP65	
	Ambient temperature	-40°C ~ +70°C	
	Min.Sensing target	Ø0.1mm	
	Accessories	/	

- Diffuse reflection
- Single Fiber Type

Note 1: Improper termination of field-trimmable fiber may reduce the maximum sensing distance by up to 20%.

Note 2: The stated minimum detectable object size applies under optimal conditions of sensing distance and sensitivity setting.
