

CE

Dimension**Model**

DR-S32

Product Features

- Diffuse reflection
- Single Fiber Type

Technical parameters

Model	DR-S32
Type code	Diffuse reflection
Optical fiber model	PE23
Length	2000mm (Trimmmable)
Specification	Ø1.3mm×1.0mm Single Core
Minimum bending radius	R25
Housing material	PE
Core Material	PMMA
Connector material	SUS304
Transmitter divergence angle	60°
Light emission direction	Front
Protection degree	IEC IP65
Ambient temperature	-40°C ~ +70°C
Min.sensing target	Ø0.1mm
Accessories	/

Note 1: Improper termination of field-trimmable fiber may reduce the maximum sensing distance by up to 20%.

Note 2: The stated minimum detectable object size applies under optimal conditions of sensing distance and sensitivity setting.
